

# Barry Manilow, It's A Miracle

You wouldn't believe where I've been  
The city and towns I been in  
From Boston to Denver  
And every town in between

The people they all look the same  
Only the names have been changed  
But now that I'm home again  
I'll tell you what I believe

It's a miracle  
A true blue spectacle  
A miracle come true  
We're together ,baby-I was goin' crazy  
'till the miracle  
Came through  
Now you here, and my arms are around you  
And baby, there'll be  
Dancin in the streets  
For the miracle  
A true blue spectacle  
The miracle is you

I never knew you look so good  
I never knew any one could  
I must have been crazy  
To ever had gone away

I almost for got what it's like  
Holdin' you near me at night  
But now that I'm home again  
You know that I'm home to stay

Cause' its a miracle  
A true blue spectacle  
A miracle come true  
We're together baby-I was goin crazy  
'till the miracle came through  
Now you here and I'm feelin so good  
And baby there'll be  
Dancin in the streets  
For the miracle  
A true blue spectacle  
The miracle is you

Now you here and my arm's are around you  
And baby the'll be dancing in the street  
There's going to be dancing in the street  
Dancing in the street

Dancin ,dancin, dancin , dancin  
Dancin in the street  
Dancin , dancin,dancin in the street  
For the miracle  
A true blue spectacle  
The miracle is you  
Hey the miracle is you  
The miracle is you
