## Barry McGuire, Callin' Me Home

Sailboats sailin' a crystal sea Gypsy dolphins runnin' free Seagulls circling endlessly Callin' me home Mocking bird, butterfly Sunset color filling the sky Newborn baby starts to cry Callin' me home

I've been most everywhere A man can go I've been this whole world round Seen most everything A man can see One thing I've found Only thing I ever found

When I was lost and all alone I took a look on what I'd done The only love I've ever known Was callin' me, callin' me I heard Him callin' me home I'm going home, going home I'm going home.
