

Barry McGuire, Sing The Melody

When old man blues has got me down
Seems like my whole world's spinnin' round
There's only one thing I can do
Open up my heart and sing a song with you
Cause I know that

(Chorus:)

You'll sing the harmony
If I sing the melody
And together we're gonna sing the blues away
I hear you say
You'll sing the harmony
If I sing the melody
And together we're gonna sing up a sunny day

And when them storm clouds gather round
And crazy talking brings me down
I just can't find a place to hide
That's when I hear you whisperin'
Deep inside me sayin'

(Chorus)
