## Barry McGuire, Sing The Melody

When old man blues has got me down Seems like my whole world's spinnin' round There's only one thing I can do Open up my heart and sing a song with you Cause I know that

(Chorus:)
You'll sing the harmony
If I sing the melody
And together we're gonna sing the blues away
I hear you say
You'll sing the harmony
If I sing the melody
And together we're gonna sing up a sunny day

And when them storm clouds gather round And crazy talking brings me down I just can't find a place to hide That's when I hear you whisperin' Deep inside me sayin'

(Chorus)
