

Barry White, Don't Make Me Wait Too Long

Baby, its really amazing what I go through without you
You know sometimes I find myself counting
Counting the hours, the minutes, the seconds, the moments
Darling, please dont make me wait too long
I wanna love you, baby
Cant you see its only you I want
And you I need
Please dont make me wait too long
I wanna love you, baby
Cant you see its only you I want
And you I need
When Im away from you
Seems like forever, yeah
Girl, if you only knew
What I go through without you
But knowing in a moment Ill
Ill see that face and see your smile (Give it here)
I turn the key (Give it here), open up the door (Give it here)
Girl, there you are, I cant take much more
Darling, please dont make me wait too long
I wanna love you, baby
Cant you see its only you I want
And you I need
Please dont make me wait too long
