

Barry White, Low Rider

All my friends know the low rider
The low rider is a little higher
The low rider drives a little slower
Low rider, is a real goer
Hey
Low rider knows every street, yeah
Low rider, is the one to meet, yeah
Low rider don't use no gas now
The low rider don't drive too fast
Take a little trip, take a little trip
Take a little trip and see
Take a little trip, take a little trip
Take a little trip with me
