

Barry White, Staying Power

Im not going nowhere
Im staying baby Im staying
You know why?
Ive got staying power
Baby, Ive made plans
In a fancy restaurant where we can dance
Put on my favorite dress
You know the one
That oozes sexiness
Tonight when we make love
Im going to work your body with my tongue
Ohh baby, my missions clear
Theres more than love that keeps you here
Ive got staying power
Just when you think its over
Ill come right back again
Ive got staying power
Just when you think its over
Ill come right back again
Ive got staying power
Just when you think its over
Slow down, dont heat so fast
Anticipation makes a good thing last
Tease me with your emotions
Soon well share natures body lotion
Are you ready to free
Girl you know you got just what I need
Oh baby, my missions clear
Its more than love that keeps you here
Ive got staying power
Just when you think its over
Ill come right back again
Ive got staying power
Just when you think its over
Ill come right back again
Ive got staying power
Just when you think its over
No, no baby Im not going anywhere
No no no Im not going anywhere
Ill be here
Ill be here
For years and years
Tonight when we make love
Im going to work your body with my tongue
Oh baby my missions clear
Theres more than love that keeps you here
Ive got staying power
Just when you think its over
Ill come right back again
Ive got staying power
Just when you think its over
Ill come right back again
Ive got staying power
Just when you think its over
