

# Basement Jaxx, Close Your Eyes

I know it all seems like we're losing our minds  
We got shampoo and warfare all over the headlines  
I know it's all hype and violence we see  
And they never seem to mention the likes of you and me

I know it seems like we're losing our minds,  
and things ain't gonna get better  
I know it seems like we're losing our minds,  
but we can't change this, it's just the way it is

Close your eyes, it's all just noises in your head  
Close your eyes, it's all just noises in your head

You and her can move mountains  
All you give, but he can't buy  
And the danger keeps on coming,  
but it's alright 'cuz we got each other

I know it seems like we're losing our minds,  
and things ain't gonna get better  
I know it seems like we're losing our minds,  
but we can't change this, it's just the way it is

Close your eyes, it's all just noises in your head  
Close your eyes, it's all just noises in your head  
Close your eyes, it's all just noises in your head  
Close your eyes, it's all just noises in your head

It's all just noises in your head  
It's all just...  
It's all just noises in your head  
It's all just...
