

Basement Jaxx, Where's Your Head At?

Where's your head at, at, at, at?
Where's your head at?
Where's your head at?
Where's your head at?

Where's your head at?
Where's your head at?
Where's your head at?

Where's your head at?
Where's your head at?
Where's your head at?

Where's your head at?
Where's your head at?
Where's your head at?

Don't let the walls
Cave in on you
We can't evolve alone
Without you
Don't let the walls
Cave in on you
We can't evolve alone
Without you
Don't let the walls
Cave in on you
You get what you give
That much is true
Don't let the walls
Cave in on you
You turned the world away
From you

Where's your head at?
Where's your head at?
Where's your head at?

Where's your head at?
Where's your head at?

Where's your head at?

You have found yourself
Trapped in this
Incomprehensible maze
Where's your head at?
Where's your head at?

Don't make it easy on yourself
Where's your head at?
Got to get
Got to get
Got to get
Got to get

Where's your head at?

Where's your head at?
Where's your head at?
Where's your head at?

Where's your head at?

Where's your head at?
Where's your head at?

Don't let the walls
Cave in on you
We can't evolve alone
Without you
Don't let the walls
Cave in on you
We can't evolve alone
Without you
Where's your head at?
Where's your head at?
We can't evolve alone
Without you
We can't evolve alone
Without you
