

Basement Jaxx, Where's your head at

Where's your head at, at, at, at...
Where's your head at
Where's your head at
Where's your head at
Where's your head at
Where's your head at
Where's your head at
Where's your head at
Where's your head at
Where's your head at
Where's your head at
Where's your head at
Where's your head at
Where's your head at
Don't let the walls cave in on you
We can't evolve alone without you
Don't let the walls cave in on you
We can't evolve alone without you
Don't let the walls cave in on you
You get what you give that much is true
Don't let the walls cave in on you
You turned the world away from you
Where's your head at
Where's your head at
Where's your head at
Where's your head at
Where's your head at
Where's your head at
You have found yourself
Trapped in this incomprehensible maze
Where's your head at
Where's your head at
Don't make it easy on yourself
Where's your head at
Got to get...
Got to get...
Got to get...
Got to get...
Where's your head at...
Where's your head at
Where's your head at
Where's your head at
Where's your head at
Where's your head at
Where's your head at
Don't let the walls cave in on you
We can't evolve alone without you
Don't let the walls cave in on you
We can't evolve alone without you
Where's your head at
Where's your head at
We can't evolve alone without you
We can't evolve alone without you
