

# Basic Desire, My awakening

When with you my heart can fly  
To where my dreams all lay  
When with you I long for more  
I feel no longer poor  
Hold me close  
You'll feel tonight  
The love that you never knew  
Love I've been concealing  
I'll give it all to you  
All along I dreamt of you  
Of love I've never known  
And tonight my dream came true  
And now I'm not alone
