

# Bass Astral x Igo, Dancing in the Dark (feat. Runf

I can't stand a fear  
I wanna disappear  
But baby can't you see that?  
I am really dancing in the dark  
Wish me a luck

I can't stand a fear  
I wanna disappear  
But baby can't you see that?  
I am really dancing in the dark

Sometimes it seems to be  
It's easy to be me  
Cause just before the dark  
Always comes a little bit of light

So hug me up while i see no use  
Settle i up while i am losing my control  
I feel but i can no longer see  
My baby can't you see me nera

Chargé me up while i am out of fur  
Settle i up and make the view more real  
So i could see the colors back

No i don't want more tears  
I wanna just be here  
But baby can't you see that  
All i need is a little bit of trust

No i don't wanna feel  
Like i could disappear  
But baby please stay near  
Together we can light up the light  
We can light up the night

And it's obvious now it seems  
It's no easy to be me  
And there's no cure in here  
Cause baby i am just too emotional;

I know we were hurt like hell at first  
But you'll be well on day  
Just baby keep your faith  
Cause darling you and i  
Now just dancing in the dark
