

Bastille, Thelma + Louise

Skipping town down to Mexico
Lipstick on in the Thunderbird
Let's roll
Drive right off of the world
Leave your job and your gaslight man
Modern life was a big let down
We're bored
Felt like a brick in a wall
Days like these you wanna get away
Close our eyes pretend we're miles away
Hear the sound of my heart exploding
Can you hear the sound of my heart exploding?

She said to me
Days like these yyou wanna get away
Close our eyes pretend we're miles away
Hear the sound of my heart exploding
Can you hear the sound of my eart exploding?

She said to me
Runaway under big blues kies
Desert winds we made headlines
When you showed him what it means to say no
