

Bayside, Nameless

Do you know that every night I think of ways to get back at you
I sneak into your room
Put a pillow over your face
I suffocate you
Or reach into your chest and tear out your heart
To see if you'll bleed like I do
I bet you do

Tripping over the world
The night tripping on me
And isn't that funny
Couldn't you just laugh until you choke
I wish you would
Then your body could match your eyes
So cold and blue and lifeless
How did I ever fall for you

Do you know that every night I think of ways to get back at you
I sneak into your room
Put a pillow over your face
I suffocate you
Or reach into your chest and tear out your heart
To see if you bleed like I do
I bet you do

Tripping over the world
The night tripping on me
And isn't that funny
Couldn't you just laugh until you choke
I wish you would
Then your body could match your eyes
So cold and blue and lifeless
How did I ever fall for you

And I'll see if you bleed like I do
I'll see if you bleed like I do

Tripping over the world
The night tripping on me
But isn't that funny
Couldn't you just laugh until you choke
I wish you would
Then your body could match your eyes
So cold and blue and lifeless
How did I ever fall

Tripping over the world
The night tripping on me
And isn't that funny
Couldn't you just laugh until you choke
I wish you would
Then your body could match your eyes
So cold and blue and lifeless
How did I ever fall for you
