

# Bayside, The Final Farewell

I'm always gonna stand alone  
when I never know what to say  
when I never know how to act  
cause whenever I get this way  
and its a shame and a stupid dream  
and it made me turn away  
and so much is better this way  
and I know its hard hurt  
when your tryin to get her  
its come a drug  
and I know its hard to see where we are together  
its almost time  
let me see you laugh out loud  
cause it makes me think we had a chance  
I know we never had a song  
and we never cared enough to dance  
it seemed like a stupid dream  
to think we'd fall in love someday  
give it up so much is better this way  
and I know its hard to run when ur tied together  
its come undone  
and I know its hard to sing when we aren't together  
its almost done  
and I know its hard to run when ur tied together  
its come undone  
and I know its hard to sing  
when we aren't together its almost done
