

# bazOOms, Together Forever

How could you ever love me  
When I don't love who I am  
My heart stopped biting  
Feeling terrible again

I feel like I'm losing myself  
I'm full of disappointed  
Why don't you see me here, I'm still waiting for this

Rain in my head everyday  
More I'm alone more I think there's no one for me  
I guess I didn't deserve it all  
cause we were meant to be

Got huge tears on my cheeks  
Look like that for the weeks  
Feel there's void inside me  
I'm empty because of this

Sometimes I wonder why you don't love me anymore  
But I don't care what you think  
I wish I've never met you  
Cause we were meant to beeeee
