

# BBMak, Love On The Outside

God knows I've been hurt before  
You know what I've been through  
Time helps but it doesn't cure  
the scars will never heal  
Said your love was never ending  
But it slowly disappeared  
I know you want my heart  
But a friend is all I need  
love on the outside is all I can give  
But this love on the inside needs some place to live  
If I gave you my heart, would you give it a home  
Cos this love on the outside is love all alone  
I know that you love me  
You said a million times  
You know that it's hard for me  
Been told a million lies  
Said your love was never ending  
But it slowly disappeared  
I know you want my heart  
But a friend is all I need  
love on the outside is all I can give  
But this love on the inside needs some place to live  
If I gave you my heart, would you give it a home  
Cos this love on the outside  
I've taken my time  
I've made up my mind  
It's you I'm needin'  
You I believe in  
It's love forever and a day  
love on the outside is all I can give  
But this love on the inside needs some place to live  
If I gave you my heart, would you give it a home  
Cos this love on the outside is love all alone
