

BBMak, Staring Into Space

Chorus:

Take this world and all it's become
I wanna get out of this place
We're all livin under the sun
When we're just staring into space
Give yourself a chance to be free
You gotta give yourself a break
In the end the love you receive is equal to the love you take

Close your eyes, do you remember your past?
In the park smell the freshly cut grass
I hear a song, and that just brings it all back
And it seems like yesterday

Chorus:

Take this world and all it's become
I wanna get out of this place
We're all livin under the sun
When we're just staring into space
Give yourself a chance to be free
You gotta give yourself a break
In the end the love you receive is equal to the love you take

Close your eyes, do you remember that kiss?
The two of us, we just couldnt resist
We become one, i thought it was love
But that was yesterday
AHHHHHHHHHHHHH
AHHHHHHHHHHHHHHHHHHHHHHHHHHHHHH

I dont know what you are i dont know what you are
I dont know where you are i dont know where you are

Chorus:

Take this world and all it's become
I wanna get out of this place
We're all livin under the sun
When we're just staring into space
Give yourself a chance to be free
You gotta give yourself a break
In the end the love you receive is equal to the love you take
