

# Be Your Own Pet, Bicycle Bicycle You Are My Bic

We're on two wheels baby  
We're on two wheels baby  
We will come to your town  
Burn your house down  
Turn the sky brown  
All because, all because, all because  
We're on two wheels baby  
We're on two wheels baby  
We'll change the eye colour  
Of every lady  
We're fast, we're fast  
We're fast we're having a blast  
All because  
We're on two wheels baby  
We're on two wheels baby  
Change the colour of your make up  
All the sleepyheads won't wake up  
All because all because all because  
Because because...  
No gears, no brakes  
No real, no fake  
(repeat x4)  
Have fun, and be safe with it  
Just kidding, mosh me up  
We ride bikes, cars are for idiots  
All because, all because  
We're on two wheels baby  
We're on two wheels baby  
We're on two wheels baby  
We're on two wheels baby
