

Be Your Own Pet, Damn Damn Leash

You got me on a leash, a damn damn leash
And it's hard enough to be myself
You got me on a leash, a damn damn leash
And it's hard enough to be myself
Well I've got my problems over here
You got yours over there
So stop throwing shit on me
Because you know it's not fair
Stop dragging me around, around and around
Because it's hard enough to be my damn self
Stop dragging me around, around and around
Because it's hard enough to be my damn self
Around, around, around, around...
Well I've got my problems over here
You got yours over there
So stop throwing shit on me
Because you know it's not fair
You got me on a leash, a damn damn leash
And it's hard enough to be my damn self
You got me on a leash, a damn damn leash
And it's hard enough to be my damn self
