

# Be Your Own Pet, Damn Damn Leash

You got me on a leash, a damn damn leash  
And it's hard enough to be myself  
You got me on a leash, a damn damn leash  
And it's hard enough to be myself  
Well I've got my problems over here  
You got yours over there  
So stop throwing shit on me  
Because you know it's not fair  
Stop dragging me around, around and around  
Because it's hard enough to be my damn self  
Stop dragging me around, around and around  
Because it's hard enough to be my damn self  
Around, around, around, around...  
Well I've got my problems over here  
You got yours over there  
So stop throwing shit on me  
Because you know it's not fair  
You got me on a leash, a damn damn leash  
And it's hard enough to be my damn self  
You got me on a leash, a damn damn leash  
And it's hard enough to be my damn self
