Be Your Own Pet, Stairway to Heaven

A stairway to heaven...

Lean on my shoulder, lean on my shoulder I want another year older
Lean on my shoulder, lean on my shoulder
And share a bed with me
Lean on my shoulder, lean on my shoulder I want another year older
Lean on my shoulder, lean on my shoulder
And share a bed with me

Get this something out of my head There's too much shit going on my brain Hurry hurry hurry Cos I think I'm gonna go insane

Whatever whatever whatever I know I know you know you're clever So seduce me, introduce me On the list you've had forever

My brain is on fire, my brain is on fire So whisper in my ear When it's all over, when it's all over You can come and kiss me right here

My brain is on fire, my brain is on fire So whisper in my ear When it's all over, when it's all over You can call me, kiss me right here
