

Be Your Own Pet, Super Soaked

I just want to run around
I just want to party down
I just want to run around
I just want to party down
Drug rugs and beer [unverified], it's all I know
I don't wanna grow up and have to let go
I feel the pressure to change my ways
All I see are more dark days
teenage ways is on my brain
Get away, a feeling I can't explain
I don't want this thing to ever stop
Just shut up, and hand over that pop
Just 19 when I lost all my dignity
Today's my birthday, and now I'm 20
Don't wanna have responsibility
Don't wanna be a part of society
I wanna be where the boys are, too
I wanna do the things I wanna do
I won't do what you tell me to
I don't wanna have to listen to you
teenage ways is on my brain
Get away, a feeling I can't explain
I don't want this thing to ever stop
Just shut up, and hand over that pop
What's the point of doing something?
Every night gotta feel the pain
Some people say that I'm disgusting
I don't care, I just think they're lame
Kill the rainbow, feel the rocks
Just 19 when I lost all my dignity
Today's my birthday, and now I'm 20
Don't wanna have responsibility
Don't wanna be a part of society
I just want to run around
I just want to party down
I just want to run around
Party down, whoo
Next year I'll be 21
Look out, world, 'cause I wanna have fun
Next year I'll be 21
Look out, world, 'cause I wanna have fun
