

# Beanie Sigel feat. Freeway, Rock The Mic

Roc the mic, holla, bounce, bounce, bounce  
It's B Sig in the place with Young Free  
And I got what it takes to roc the mic right  
Still watch what you say out your mouth  
'Cause 50 shots still will burn the club out  
I miss the hood when I'm travelin', get neck when I'm travelin'  
Chicks peck wood when I'm travelin'  
Fuck a Lex 'cause the click fit good in the Caravan  
Slide through your hood like a avalanche  
Take a flick if you get a chance get that close  
Fuck an advance 'cause I get that dough  
Beef with me, enemies come sleep with me for breakfast  
Guaranteed to eat this toast, I'm reckless, fire-starter, heat your folks  
A starvin' artist that a-eat y'all tracks, so don't bring 'em around  
I be around ricans vida loca, they got all the toasters  
Don't need no gats, I got a six stashed leave 'em around  
So I don't get left around haters around when I leave  
In the winter rock short sleeves reason the pound  
With the heat blastin', keep actin' the heat blastin'  
Techno Marine shinin', marine fashion backin' 'em down  
Niggas 'gone keep hatin' and my click 'gone keep grindin'  
Keep movin', lockin' the town  
It's Freeway in the place with B Sig  
And I got what it takes to roc the mic right, yeah  
Still watch what you say to me prick  
'Cause I got what it takes to dump the AK clip  
It's B Sig in the place with Young Free  
And I got what it takes to roc the mic right, yeah  
Still watch what you say out your mouth  
'Cause 50 shots still will turn the club out, ho  
It's Mack-daddy-young strappy, no he ain't the OG gangsta  
Yes I is, come on, don't test I kid, I firebomb cribs like Left Eye did  
Notorious like that Bed-Stuy kid, B.I.G. or small you can get it  
Dead wrong like tryin' to brawl a strong armored midget  
I pull the 9 out my pocket I'm lyin', I pull the Mac out the closet  
Start firin', for you cats outta pocket, stop tryin'  
Take that, get back, clap iron, you know, stay low, keep firin'  
I put the led in the gat, the metal go clap  
I lay cats flat on they back, stop fuckin' with this radical cat  
You fuck around and need a medical cat, the led'll go clap  
Your head'll go back, it's B Sig in the place to be  
With two heaters on the waist of me, man who's facin' me?

It's B Sig in the place with Young Free  
And I got what it takes to roc the mic right, yeah  
Still watch what you say out your mouth

It's Freeway in the place with B Sig  
And I got what it takes to roc the mic right, yeah  
Still watch what you say to me prick  
'Cause I got what it takes to dump the AK clip  
Big nickels down your way, don't trip, get folded down your way  
Got soldiers down your way, keep quiet down your way no lip  
All of y'all need to run yo'self, go get the burna, nigga bang yo'self  
Or I come through with the hammer make you lose yo' health  
Fast, roll with dashes, move like Cassius Clay  
Move yay like caskets, there's a will there's a way  
Obey my thirst move yay through traffic without Sprite, without Nike's  
I just do it bar break your basket, yeah you damn right, without ice  
I pull up to your honey car and stuff her basket  
International post player, circle the atlas  
You don't wanna be hoe playas, circle the hood  
Bend over backwards without searchin' for backwoods
