

# Bear Vs. Shark, I Fucked Your Dad

These problems I'm having all  
With structure and treatment of  
Of humans and animals, the beautiful people!  
The grass that we nurtured on  
When those equal treatments to  
These conflicts directed to, the conquering people...  
To be in accordance with  
The skylight provided by  
You are my first day, my first day of silence!  
We're marching a rat race, all to a T.  
Our hands on the horn, heading for home.  
The science... of driveways... to captives.
