

# Beardo, Nothing Changes

## Verse 1

These years, i juggle a pistol  
And a letter, sincerely beardo  
See i ain't kill my self yet  
But the voices, they don't let me get no rest  
How'd my life end up such a mess?  
And how'd i get this gun on my chest  
Cocaine is the devil  
And i know now, i ain't made of metal  
My own friends, they don't get it  
I'm a piece of shit! there i said it  
And every night i just dream when i was a kid  
Playing and shit  
A roach fell in my cocoa puffs  
Spaghetti-os i packed for lunch  
Ring ring, alarm goes off  
I start my new job working at ralph's  
You see it's too late for me  
I got two burned out knees  
And i ain't got much to eat  
Just some cereal, and some moldy meat  
And i'm getting real sick, of my music  
And the way i abuse it  
Heard shoot to kill got drive by'd  
Hmm... haha

## Hook

It's all the same  
Nothing changes around here  
(repeat)

## Verse 2

When i die, i'm gonna die rich  
That's what i tell myself in this fucked up shit  
La i'm gonna waste away  
Cut another line of the yay  
27 and i'm on my way  
Up or down? who can say?  
Another visit to the county hospital  
I can't stop bleeding out of my nostrils  
Things just seem so impossible  
When your dad won't even talk to you  
And i ain't mad at uncle sam  
Gone crazy again and again  
And this just might be the end  
Get it while you still can  
Cause i'm just one man  
With one plan  
I'll be killing in iran  
I'll be killing in iran  
Haha
