

Bears, The, Under The Volcano

Bears, The

Car Caught Fire

Under The Volcano

Hold me closer - keep your distance

Tell me your secrets - mind your own business - sally

We had everything - under the volcano

We watched our laughing children sing - under the volcano

You thought that i was beautiful - under the volcano

A hundred thousand years ago - under the volcano

Hell is here on earth, you know - under the volcano

When you top the bill at a freak show - under the volcano

Where the flesh is weak and the minds are slow - under the volcano

A waterbed on a lava flow - under the volcano
