

# Beastie Boys, Square Wave In Unison

Made a noise invented a sound  
When brian wilson used it a hit was found  
If only I could have imagined  
The square waves running through his head

Square wave - people couldn't believe it  
Square wave - all the way to carnegie hall  
Square wave

One rod for pitch  
Electro magnetic fields  
Wired up sing sing  
Hung out with einstein

For all all of his brilliant innovation  
Sent off to a siberian reservation  
Square wave - people couldn't believe it  
Square wave - all the way to carnegie hall  
Square wave
