Beat Crusaders, LET'S ESCAPE TOGETHER

One fine day On my way There's a bear In a deep forest

Run away Hide away There's no way Getting where I belong

But, you wait! Look away Here to stay Too many people

We're afraid So afraid Anyway Why don't we sing along?

Everybody, let's escape together! Everybody, let's get lost together! Everybody, let's escape together! Everybody, let's get lost forever

Cos I know Evils in my mind Get down straight Close to my heart Yes, I know Evils in my mind Grow

Welcome to the overture This is the hell Welcome to the overture Here comes the time
