

Beat Happening, I've Lost You

I got no beautiful girl
I got no beautiful girl
Girl

I scraped up the insides
With the pounding and the lies
I've lost you

The jury will be hanged
Cause there's really no one to blame
Except for me
And my pride

Who's gonna love me
Who's gonna love me
Who's gonna love me
The way that I am
Who's gonna love me
Who's gonna love me
Who's gonna love me
The way that I am

Girl

The smile when it died(?)
And it only came in at night
Girl
Girl

You got no beautiful girl
I got no beautiful girl
Girl

I've lost the sickness
And the medicine that did this
Girl
