

Beat Happening, Left Behind

Horizon turned upside down
On your way don't turn around
All the way to always day
Don't have hands you turn to rule
Standing here my pocketful
I got my own way
Left behind
Left behind
Left behind
The dirt stays inside with me
Eyes bright
Always right
Big strong thigh
You will not be turned away

On your way with laser beams
You want more things, you want more things
I got my own way
Left behind
Left behind
Left behind
Left behind with cat and mouse
Eyes bright
Distant night
Always right
Out of sight you say

You want more things I got my own way (x4)

Dig a tunnel to the copper mine
Don't sacrifice what you find
All the way to always day
Speed devil gone freeway bound
On your way don't turn around
I got my own way

Left behind
Left behind
Left behind
Left behind my pocketful
Left behind
Left behind
Left behind
My pocketful
