

Beat Union, Dancing In Our Sleep

I got a girl who don't tell lies
I got a girl who satisfies
I got a girl when I close my eyes
'Cause I see her in my sleep
I got a girl from 12 'til 8
I got a girl, can't stay up late
I got a girl now I can't stay awake
'Cause I see her in my sleep
We move to the music all night long
Stay in bed for another song
Oh oh oh where do all the lonely people meet?
We're dancing in our sleep (Hey)
Oh oh oh where do all the lonely people meet?
We're dancing in our sleep (Hey)
I want love with no lock and key
What love is gonna let me be?
I want love not reality
So I see her in my sleep
We move to the music all night long
Stay in bed for another song
Oh oh oh where do all the lonely people meet?
We're dancing in our sleep (Hey)
Oh oh oh where do all the lonely people meet?
We're dancing in our sleep (Hey)
Dancing in our sleep
Dancing in our sleep
I wake up and I'm down
Every day wears a frown
'Cause life can be so cruel
I'm f**king you every night
In my dreams it feels right
But the dreamer is a fool
And no-one said that dreams come true
We move to the music all night long
Stay in bed for another song
Oh oh oh where do all the lonely people meet?
We're dancing in our sleep (Hey)
Oh oh oh where do all the lonely people meet?
We're dancing in our sleep (Hey)
Oh oh oh where do all the lonely people meet?
We're dancing in our sleep (Hey)
Oh oh oh where do all the lonely people meet?
We're dancing in our sleep (Hey)
Dancing in our sleep
Dancing in our sleep
