Livin' foul like a motherfucka, that's the way it's been

Ever since I was a shorty, sucker

So don't even try to flex, I'll put a round in your chest

And leave you in a fuckin' mess

Niggas know my style they be playin', if I have to catch a body

I will, know what I'm sayin'?

Niggas from Corona don't be havin' it, you put your face in my grill

I'll be stabbin' it

You fuck around and catch a bad one, I'll kill you like a 6pack

And put you in a bag, son

And I still ain't frontin', fully loaded keg shells

Ready to go huntin'

You don't stop, you keep on(X2)

Many MC's that defeated me, please wave your arm

You don't stop, you keep on(X2)

For pussy or any fuckin' mass , plus I'm raw dogstyle

In your girls ass, ho, OOH! I think I just came

Stud's break didn't work, I guess it's all in your brain

Shit smells like demon spirit, herb that funk like this

Fashion-

Ooh child, motherfuckas bound with the licks

Oh shit', I'm hittin' niggas sick with my tricks

So throw up styles that blow up whiles I go

On with the flow, better act like you know, hey

But I won't take no prisoners, got shit for his-n'-hers

Fucks up you all, when the nuts have a ball

Cause we don't play, blast brains with the smoker

Get fucked up when we toke with the joker

And, never let me see you cryin' heads start to fly

And it's time for their dyin'

And I'ma get real deep, fall into a sleep

Knock a freak in my sheets, man, fuck countin' sheep

And come on, step on up and meet my Tek  
Either fill you full of wholes, or ring your fuckin' neck  
'Cause I'ma let off and bust a shot in your eye  
Make way motherfucks, it's the real superfly!

Yeah, yeah, yo,yo,yo, HO  
Where the fuck is my liquor?

YOU, BITCH!
