

Bebe Rexha, Count On Christmas

There's something starring
something crackling
like the fire wood
a certain spirit that has
lightened up the neighborhood
I think it's time for the timeless
time of the year
time of the year
you're bundled up
got a blizzard coming on the way
the family fighting like they do
cause it's the holidays
and every memory you're holding
in your heart is alive
once more, right here

feels like you're a kid again
making you remember
when life was good
just watching the snow fall down

doesn't matter if the year's got you feeling down
just remember in December what is coming around
and you'll find the feeling
that you always found
you can count on Christmas
count on Christmas
coming back home to the old address
something burning in the kitchen
with the house a mess
and this year is promising nothing less
you can count on Christmas
count on Christmas

count on Christmas
count on Christmas

we got a Christmas song
sing-a-long around the tree
hit the eggnog flow
until we all tipsy
there's another movie
marathon on TV

which one could it be
but with all of the presents
all of the gifts
it's really about who
you're sharing them with
and just on Christmas eve
the world's the way
is used to be

doesn't matter if the year's got you feeling down
just remember in December what is coming around
and you'll find the feeling
that you always found
you can count on Christmas
count on Christmas
coming back home to the old address
something burning in the kitchen
with the house a mess
and this year is promising nothing less
you can count on Christmas

count on Christmas

count on Christmas
count on Christmas
