

# Bebe Rexha, Ride Till You Die (feat. Voli)

Take me to some city where the lights are bright  
When I'm with you, sugar, it's like paradise  
Take me a thousand miles, a thousand miles away  
We'll be so far gone, just like a runaway

Baby hold me tight  
No more lonely nights  
Where we'll end up, no one really knows  
As long as i'm in your arms

We'll be alright  
Rebels of the night  
Like Bonnie did with Clyde.  
Will you ride untill you die?  
Will you ride untill you die?  
Rebels of the night  
Like Bonnie did with Clyde.  
Will you ride untill you die?  
Will you ride untill you die?

Cadillac Convertible pushing on the gas  
Wind blowing threw your hair, your foot up on the dash  
My heavenly angel with a devilish laugh  
We lit the world on fire, that's a hell of a match  
Let's let the sunset swallow us, we against the world  
I hold your body close to me, that's me against my girl  
No religion, I believe in you  
If they don't give you no credit, baby, I'll pre-approve

Hey doll, you dim the stars,  
I'll give you my eyes so you see who you are  
Just tell me when  
And let's drive forever  
Two Loners in the night, but we shine together  
Hey doll, let's break the law,  
cause I'm your rebel and your my cause  
Until the end  
Ride together, die together  
And even if we broke,  
we spend our lives together, alright

We'll be alright.  
Rebels of the night  
Like Bonnie did with Clyde.  
Will you ride untill you die?  
Will you ride untill you die?  
Rebels of the night  
Like Bonnie did with Clyde.  
Will you ride untill you die?  
Will you ride untill you die?

Do you hear my heart?  
Do you feel it beating?  
This love is indestructible  
Do you hear my heart?  
Do you feel it beating?  
This love is indestructible

We'll be alright.  
Rebels of the night  
Like Bonnie did with Clyde.  
Will you ride untill you die?  
Will you ride untill you die?  
Rebels of the night

Like Bonnie did with Clyde.  
Will you ride untill you die?  
Will you ride untill you die?
