

# Bebe Winans, This Song

All I wanted was to be loved  
No one deserves to be alone  
Accused for taking love for granted  
But now I see...  
If I don't share the way I feel  
How can you know?  
I found a way to let it show

[Chorus:]

I felt by writing this song  
It would reveal all my heart  
And tell you the way that I'm feeling  
I feel like telling you how much I love you so  
No special reason, just thought you should know

When those dark clouds arrive to harm me  
I don't get afraid, I give you a call  
For all that you do  
I just want to thank you  
If I don't share the way I feel  
How can you know?  
Now and forever let it show

[Chorus]

Said I thought you should know  
This is coming from my heart  
Thought you should know  
That I'll never ever part  
Thought you should know  
That it was love from the start  
If I don't share the way I feel  
How can you know?  
I found a way to let it show

[Chorus]
