

# Bebel Gilberto, Next To You

So winter's come  
And summer's fall  
Time is just a whisper  
In a waterfall

Forever now  
Forever now  
Every road I wander  
Brings me back here  
Next to you

Be still my love  
And close your eyes  
Don't say a word  
No hows or whys

Everything I need, within me  
All the dreams I've dreamed, are true  
And all the starry skies, inside me  
When I'm next to you
