

# Bebo Norman, Falling Down

Angels on a subway  
She's buried in a magazine  
Stuck inside a replay  
Of someone else's dream

Prophets made of paper  
Don't tell her anything  
She wants something just to save her  
So she lifts her head and screams  
She lifts her head and screams,

## CHORUS

"I don't know you  
But I love you anyway  
I can't see you  
But I hope you're here to stay  
I don't know you  
But I need you here with me  
Cuz I'm falling down  
I'm falling down"

Now angels on a runway  
Looking for a big jet plane  
To take her to a new day  
She won't be back again  
She won't be back again  
And she says,

## CHORUS

## BRIDGE

You're on my side  
You're just in time  
I'm on my way  
Don't know who you are  
But I want you back again

## CHORUS
