

Beck, Broken Drum [Boards Of Canada Remix]

I see you there
Long black hair
Your eyes just stare
Your mind is turning
You know I'll laugh
I won't take it back
I've seen your eyes
I know what your thinking
One by one
We'll shoot our guns
We'll have fun
Don't ever doubt it
And when I say
"Fare thee well,
My only friend"
Oh, how the days go
Oh, how the days go
Your setting sun
Your broken drum
Your little drugs
Never forget you
Never forget you
Never forget you
