

Beck, Up All Night

When you get the rhythm
and words all make you cold
when they break it down
and this world is all you know
hands up you're working it round
now get yourself together
when you call the dominos fall it's time to go

now I'm feeling so far away
see the colors and all the kids going home
night is crawling up to the day
hear the noise ringing the sirens all singing

just wanna stay up all night with you
just wanna stay up all night with you
there's nothing that I wouldn't rather do
just wanna stay up all night with you

keep on moving
don't wait for nothing now
/4x

one, two
what you doing?
I've been jumping through some hoops
wona get my body loose
wanna tell you what to do
I been running
a wheel like an animal struggling
looking around a diamond
I'm trying
I'm fighting
right into the rhythm now

just wanna stay up all night with you
just wanna stay up all night with you
there's nothing that I wouldn't rather do
just wanna stay up all night with you
