

Beckett, Karma's Coming Down

Growing and learning and letting go
Everyday I'm getting better you know
It's something we don't like to talk about
It's something you know we need to let out

So come on, can you feel it in this song?

Look at me what am I looking for
Everything I want is on this floor
It doesn't really matter what you think of me
It doesn't really matter about everything I used to be

Because it's falling all around us now
And when they see us they say we cannot waste, cannot waste our time

This may be the song that makes you change
I can't stop the rain that falls and you take it all
And you lose it to the thing you want

The most I know this love will grow and grow

Because it's falling all around us now
And when they see us they say we cannot waste, cannot waste our time

Karma's coming down
Karma's coming down
Karma's coming down, all around this town
Karma's coming down
Karma's coming down

Because it's falling all around us now
And when they see us they say we cannot waste, cannot waste our time

I said I was yours, but you know I was mine
I said I was yours, but you know I was mine
You know I was mine, I was mine all the time.
