Midnight Fantasy

It's half-past twelve, and I'm on my own
Puttin' on some music, turn the lights down low
Temperature is rising, and I'm in the mood
I'm feelin' you, what you make me do

I wonder baby do you ever think of me?
Would you go for whatever comes naturally?
I'm lyin' here, I'm waitin' all alone in my bed
Thinkin' bout a way to get into your head

I'm gonna take you places that you've never been before
I come into your dreams, make you beg for more
I'll hold on to your body, I'll give you what you need
Go deeper with me baby, I'm your midnight fantasy

I'm gonna take you places that you've never been before
(Never been before)
I come into your dreams, make you beg for more
(I'll make you beg for more)
I'll hold on to your body, I'll give you what you need
Go deeper with me baby, I'm your midnight fantasy

Anything you wanna try, I just might
I'll wake you from your sleep, and we go on all night
The things I wanna do, when you look me in the eyes
You're takin' me higher, to the early light

I'm gonna take you places that you've never been before
I come into your dreams, make you beg for more
(I'll make you beg for more)
I'll hold on to your body, I'll give you what you need
(I'll give you what you need)
Go deeper with me baby, I'm your midnight fantasy

I'm gonna take you places that you've never been before (Oh-oh)
I come into your dreams, make you beg for more
(Ooh, make you beg for more)
I'll hold on to your body, I'll give you what you need
(Give you what)
Go deeper with me baby, I'm your midnight fantasy

Ooh, Holding you close would be nice
But you can't be here tonight
So I'm gonna play with your mind

I'm gonna take you places that you've never been before
I come into your dreams, make you beg for more
(I'll make you beg for more)
I'll hold on to your body, I'll give you what you need
Go deeper with me baby, I'm your midnight fantasy
(Fantasy, oh-oh)

I'm gonna take you places that you've never been before
I come into your dreams, make you beg for more
(Oh, I'll make you beg for more)
I'll hold on to your body, I'll give you what you need (Ooh, yeah)
Go deeper with me baby, I'm your midnight fantasy

I'm gonna take you places that you've never been before
I come into your dreams, make you beg for more
(Oh, make you beg for more)

I'll hold on to your body, I'll give you what you need
Go deeper with me baby, I'm your midnight fantasy
