

# Becky Hill, Disconnect (feat. Chase & Status)

I ain't gonna lie to you  
Life's been fuckin' life-in'  
And I need a night or two  
To get me unwindin'

I feel like I'm stuck in cycles every day  
Come and get me out this loop  
So just switch it up for me  
It's time to get loose

If we disconnect  
We ain't gotta be aligned  
We can redirect  
Everything that's on our minds, let it go  
Change up your frequency and  
You'll see how easily you'll disconnect  
From everything that's on your mind

Disconnect  
From everything that's on your mind

Where's my fuckin' lighter crew?  
Put 'em up high then  
Now's the time to raise the roof  
We don't need the fightin'

When we're gettin' stuck in cycles every day  
We know how to make it through  
So just switch it up for me  
It's time to get loose

If we disconnect  
We ain't gotta be aligned  
We can redirect  
Everything that's on our minds, let it go  
Change up your frequency and  
You'll see how easily you'll disconnect  
From everything that's on your mind

Oh-oh-oh, let it go  
Oh-oh-oh, just let it go  
Oh-oh-oh, let it go  
Oh-oh-oh, just let it go  
Oh-oh-oh, let it go  
Oh-oh-oh, just let it go  
Oh-oh-oh, let it go  
Oh-oh-oh, just let it go

Change up your frequency  
You'll see how easily you'll disconnect  
From everything that's on your mind
