

Bed & Breakfast, Every Time

Every time I see you smile
I'm as happy as a child
You know that it's true
There's nothing I want more
That's what I'm living for
Yeah, only for you
Stay a little while
'Cause I need you by my side
Every time you smile
I see your face so shining bright
Girl, I won't let you go
Yes you mean that much to me
Don't let the time just flow
I want you to know I like your smile
No matter where you are
You'll be in my fantasy
Shining like a star
You're the only one for me
I wanna hold you tight
Look into your lovely face
My love burns deep inside
I want you to know I like your smile
Every time I see you smile...
