

# Bed & Breakfast, Forever My Girl

Forever my girl  
You will be forever my girl  
Forever my girl  
Together forever my love  
You'll be forever my girl  
Forever my love, my love  
I wanna be with you my baby  
Forever, wanna be my girl  
Your sweet loving drives me crazy  
Oh let me into your world  
I always have to think of you darling  
Just one thing I always knew  
There's nothing I want more than your loving  
And this time it will come true  
You've got to know it girl  
You will be forever my love  
There's nothing I want more  
You will be forever my girl  
Forever my girl...  
Feelings for you getting really stronger  
Much stronger after every night  
I'm sure that it will last for longer  
I promise I will treat you right  
You know we're made to be together  
My heart is always telling the truth  
I swear you will be my girl forever  
No matter if I win or lose  
You've got to know it girl...
