

Bed & Breakfast, I Will Follow You

First time I looked in your eyes
All these emotions didn't realize
Givin' you my heart is all I wanna do
Nothing can stop me
I will follow you
We'll be lovers
Hand in hand
Baby you are the one to make me understand
I will follow you night and day
Everywhere you're going to
I will follow you
I will follow you night and day
Do anything you want me to
I will follow you
Now that you're not here anymore
Thinkin' of the good things
That we did before
We belong together
So don't walk on by
You're the only one who makes me laugh and cry
We'll be lovers...
I will follow you...
(Rap)
Yabba-dabba-dooa
No matter where ya go
I will follow you-a
I was like :
>>Man, you gotta dibbe do her<<
Day or night
Makes no difference to me
Mama mia - I'd die for the time
That I see her here
Follow you like thirst
Hunts the water
Being next to you
Makes me b-b-b-begin to stutter
Don't worry, be happy - you'll see
next time you'll follow me
We'll be lovers
Hand in hand
We'll be together
We'll be lovers
Hand in hand
'Cause you are the one to make me understand
I will follow you...
