

Bed & Breakfast, Stay Together

Stay together, trying to find a way
day by day we'll stay together
life ruled by love and hate
friends are hard to find
together forever that's life
together forever
we stay together, trying to find a way
day by day we'll stay together
life ruled by loved and hate
day by day that's life

Now I fell the time is right
need your loving day and night
trust yourself - you've got to believe it, baby...
There's a chance you can't deny
make your way and touch the sky
don't look back - you've got to believe me, baby

Some are good and some are bad
sometimes in love and sometimes so sad
but it depends - if you have friends
you will not turn mad
Stay together...

Step by step into the light
through the darkness and the night
never lose your hope - just believeme, baby...
Some are good...
Stay together...
