

Bed & Breakfast, You Made Me Believe In Magic

You made me believe in magic
You know that I can be truly in love
You made me believe in magic
Your love puts the magic
Into my life

I believe a love has gone
Have no strength
To carry on
Find my world
Was upside down
Then you walked on into my life
I went to work
To set things right
What's the secret that you use

You made me ...

Now I'm feeling
There's a new sense to be
You gave my love
Harmony
Lovin' you is all I need

You made me ...

You made me believe in magic
You made me believe in magic

You made me ...
You made me ...
