

Bedouin Soundclash, Criminal

ready, ready, ready, ready.....
tonight the moon hangs low
we walk it down on the country's death row
in clean clothes he stands too tall
you still heed the rebels call
with guns pressed against the wall
the man's a criminal
shot rings out
country shouts
his kind are animals
people stop
when this man drops
stop the criminal
shot rings out
country shouts
his kind are animals
the people stop
this man drops
stop the criminal
criminal
i started out of town last night
making my way to the border line
what is it that you want?
i ain't no animal
what is it that you want?
you know i'm not your criminal
shot rings out
country shouts
the mans a criminal
people stop
when this man drops
his kind are animals
police man stops
when we drive
are you a criminal?
the country stops
when this man drops
stop the criminal
criminal
who's the shadow behind your door?
was it my face you were looking for?
what is it that you want?
i ain't no animal
what is it that you want?
you know i'm not your criminal
people stop
when this man drops
his kind are animals
shot rings out
his country shouts
stop the criminal
police man drop
when this man stop
we want no criminal
what you want
our job is done?
his kind are animals
criminal
ready, ready, ready, ready, ready
