

Bedouin Soundclash, Trinco Dog

Trinco Dog

Trinco dog have you sang your last song
cause you look tired today
but if you keep walking
there's people talking
and a band that might play

Trinco dog sang a song
band played along
some boy sing a song
you know you couldn't go wrong
Trinco dog sang a song

Still I can't find the words to play
there's nothing left you can say
the road we traveled is rock and gravel
and there's nothing for pay

Trinco dog sang a song
band played along
some boy sing your song
you know you couldn't go wrong
a song's song
Trinco dog sang a song

the song changed
but the rhythm remained
as Trinco dog sang away
the road less traveled is rock and gravel
and there's nothing for pay

Trinco dog sang away
band played along
some boy sing your song
you know you couldn't go wrong
a song's song
a Trinco's song's song
a song's song
Trinco dog sang a song
